<p><u>TUVI/GTC/01</u> <u>Rev. 0</u> <u>Date: 01/05/2023</u> <u>Page 1 of 5</u></p>	<p align="center"><u>GENERAL TERMS AND CONDITIONS OF TUV INDIA PRIVATE LIMITED</u></p>
<p>I. Definitions The following terms used in these General Terms and Conditions have the following meaning: "TUVI" is the company of the TÜV NORD GROUP, in which name this Agreement is being signed. "Customer" is the Company, Sole Proprietary firm, Entrepreneur or any other entity who is issuing the order on TUVI.</p> <p>II. Validity of these Conditions 1. Except as provided otherwise in individual cases, Agreements with the TUVI are concluded exclusively pursuant to the following provisions. The TUVI does not accept any of the Customers conflicting regulations or conditions to the contrary unless it expressly consented to such in writing. The TUVI's following conditions apply even if the TUVI provides its service without reservations while knowing of the customer's contradicting or conflicting conditions. 2. These General Terms and Conditions apply to all of the TUVI's services (to include but not limited to Certification, inspection and testing services) and all responsibilities resulting from the contractual obligation with the customer's. These conditions also apply to all future business relations vis-a-vis companies and corporate bodies governed by public law. 3. In the event of any conflict between these terms and conditions and any document purporting to impose different terms, these terms and conditions will prevail.</p> <p>III. Conclusion of the Contract 1. An Agreement is deemed to be concluded with the TUVI only after the Customer accepts an offer by the TUVI without reservations or if the Customer receives a written order confirmation from the TUVI or if the TUVI commences the provision of the service. If the TUVI issues a written order confirmation, such order confirmation is decisive in terms of content and scope of the Agreement unless expressly negotiated otherwise. 2. Any and all arrangements between the Customer and TUVI regarding the performance of the Agreement are fully set forth in writing in this Agreement including these General Terms and Conditions. There are no verbal supplements 3. Amendments, collateral agreements and additional provisions as well as any respective warranty of quality shall require our written confirmation in order to become effective. 4. All statements and communications which form part of the contractual and business relationship shall be declared in writing, by email or in any electronic or physical form, unless otherwise expressly defined under these terms and conditions.</p> <p>IV. Performance of the Agreement and Customer's Obligation to Participate 1. If objects of the Customer must be accessed for the contractual performance of the service owed by the TUVI, the TUVI shall not be liable for compensation for damage to or destruction of these objects resulting from the contractual performance. 2. If the TUVI's own equipment is damaged, destroyed, or lost as a consequence or at the occasion of proper performance of the TUVI's service and through no fault of the TUVI, the TUVI is authorized to request replacement from the Customer. 3. Transportation and possible return of the Customer's objects is at its own cost and risk; however, return is performed only upon the Customer's express request. During storage, the TUVI's liability is limited to the same due diligence as for its own affairs.</p>	<p>4. The Customer is obligated to fully disclose all information relevant for the TUVI's proper performance of its service. The TUVI, is however not obligated to review the accuracy and completeness of data, information, or other services provided by the Customer, in so far as there is no cause for this in consideration of the respective circumstances of each individual case, unless expressly stated within the order. The TUVI does not accept any warranties for the accuracy of safety rules, information and programs upon which its inspections and expert opinions are based, unless such regulations, instructions, or programs originate with him or are the object of the inspection order. If the TUVI is commissioned with inspecting the technical safety of an object, it does not accept any warranties for the object's freedom from other faults, unless this is expressly listed in the order. 5. In so far as the Customer's participation is required for the TUVI's performance of services, the Customer must provide such in a timely manner and at its own costs; expenses will be reimbursed only if this has been negotiated expressly in text form. To the extent that the Customer does not fulfill its obligations to participate, does not do so properly or in a timely manner, and if acceptance is therefore delayed, the TUVI is authorized to charge any additional expenses thus incurred. The TUVI's further legal claims are expressly not affected. 6. The TUVI is authorized to have the services owed under this Agreement performed by a carefully selected and suitable subcontractor. 7. If the TUVI is active outside of its premises, the Customer shall be responsible for any measures required in order to fulfill duties of care to safeguard public, unless such is not required based on the nature of the activity or based on an agreement with the Customer. The TUVI is authorized to refuse performance of the service for as long as required measures are not taken. The Customer will inform the TUVI in writing, in a timely manner, of all safety and accident prevention regulations applicable at the location. 8. If the Agreement includes services pertaining to the Customer's Information Security system, the Customer is obligated to back up data and programs at regular intervals that are adequate for the application, at least once a day, in machine-readable form, to ensure that these can be recovered with reasonable effort. The TUVI is not responsible for loss of any data during the performance of services 9. In addition to above, the customer shall ensure that all the necessary assistance on his part or on the part of persons he engages to help in performance of the contract shall be provided in good time and at no expense to TUVI. Such assistance shall include, but not be limited to, access to documented inspection history, safe site access, timely availability of key interface, preparation of items for inspection in good time, permission to carry out necessary audit, inspection or testing on TUVI as part of accreditation and approval process by regulatory, certification & accreditation bodies if & when required. Such assistance must be in accordance with relevant applicable standards, safety provisions and accident prevention regulations. The customer or the persons/parties he/she engages shall ensure restriction of access to the inspected items and the equipment/facilities used for inspection by unauthorized persons. In case of doubt TUVI shall have the right to confirm the continuing suitability for the intended purpose of the inspected items and the equipment/ facilities used for inspection by means of visual inspection, functional checks, additional tests if required, verification of records and/or recalibration of the equipment/facility.</p>

<p><u>TUVI/GTC/01</u> <u>Rev. 0</u> <u>Date: 01/05/2023</u> <u>Page 2 of 5</u></p>	<p align="center"><u>GENERAL TERMS AND CONDITIONS OF TUV INDIA PRIVATE LIMITED</u></p>
<p>The customer shall be liable for the extra expense entailed by late or improper assistance on his part. TUVI shall be entitled to charge for this extra expense in addition even if a fixed or maximum price has been agreed. In the same way, the customer shall bear any expenses incurred owing to the fact that work has to be repeated or is delayed because of his late, incorrect or incomplete information or if the inspection cannot be accomplished due to adverse weather conditions or vendor related factors. The customer or the persons/parties he/she engages shall take responsibility to provide a safe place of work for TUVI's employees. If the employees are exposed to unsafe work conditions, the deliverable activity shall not be conducted till the conditions are rectified & considered to be safe.</p> <p>V. Deadlines and Schedules</p> <ol style="list-style-type: none"> 1. If a binding deadline for the provision of services is not agreed, the TUVI defaults only if the Customer has first given an adequate deadline in text form to provide the service owed and such deadline has expired unsuccessfully. Deadlines commence only as of the complete provision of any and all obligations to participate owed by the Customer, and, in so far as a payment has been negotiated, as of the receipt of such. Deadlines are extended accordingly due to the Customer's retroactive change requests or delayed participation. 2. If the service owed by the TUVI is delayed due to unforeseeable circumstances and through circumstances, for which the TUVI is not at fault (e.g. strike, legitimate lockout, disruption of operation, transportation disruption, shortage of resources, official measures - also at the TUVI's supplier), the TUVI is authorized to defer the service for the duration of the delay. In the event that the delay lasts more than six weeks or maximum limit defined under accreditation, the TUVI is authorized to withdraw from the Agreement. The TUVI will immediately inform the Customer of the non-availability of the service or partial service, and in the event of a withdrawal from the Agreement will immediately reimburse any services in return already provided for such. Claims for damages are excluded. Also refer Section XI Force Majeure. 3. If the Customer defaults on acceptance or if it violates other obligations to participate, the TUVI is authorized to request reimbursement of any additional expenses possibly incurred due to such default or violation. This does not affect any further legal claims for damages. <p>VI. Acceptance</p> <ol style="list-style-type: none"> 1. The Customer is obligated to accept the TUVI's services. Insignificant defects do not entitle the Customer to refuse acceptance. In case of separable partial services, the TUVI is also authorized to request partial acceptance unless specific provision of accreditation is applicable 2. The Customer is obligated to accept the TUVI's services within 14 days after completion and TUVI's request for acceptance, unless the Customer refuses acceptance within the fixed grace period by specification of at least one defect. If the Customer does not accept the services within the fixed grace period even though it is obligated to do so, the service is deemed to be accepted. If the Customer is a Consumer, the TUVI along with its request for acceptance is obliged to expressly inform the Customer of the consequences of not declaring the acceptance or refusing acceptance without specification of defects. 	<ol style="list-style-type: none"> 3. If the Customer claims a retention right due to defects in service delivery, the TUVI shall review its service. If the Customer's retention is proven to be unjustified, the Customer shall bear all incurred additional costs unless it has acted merely with slight negligence or is not at fault. 4. Intellectual performances shall be deemed as accepted, unless the customer expresses reservations in writing within 14 days after significance of his behaviour when the period of notice begins. In this case we will check our performance. Should our performance prove to be without fault the customer shall bear the additional cost, unless he has only committed an act of minor negligence. <p>VII. Prices and Payments</p> <ol style="list-style-type: none"> 1. The price listed by the TUVI or otherwise the price commonly charged by the TUVI for the respective service is decisive, plus statutory taxes in so far as such is applicable. Any bank charges or financial institutional charges for remitting the payment due to TUVI will be responsibility of Customer and TUVI will not accept any such charges deducted from the remittance. 2. If, within the scope of contracts for the performance of a continuing obligation and long-term contracts, the TUVI's prime costs increase and such increase is not within the TUVI's own scope of responsibility, the TUVI is authorized to an appropriate price increase commensurate with the increase of its prime costs; if the Customer does not consent to such price increase it is authorized to terminate the Agreement within four weeks after receipt of such notification of a price increase; otherwise, the increase is deemed to be mutually agreed upon. A right to a price increase pursuant to this provision does not exist if the Customer is a Consumer. 3. The Customer shall pay the remuneration owed without any discounts, free of charge to the TUVI, and within seven days after receipt of the invoice, to the bank account stated by the TUVI. Credit entry at the TUVI's account is decisive for the timeliness of the payment. The TUVI reserves the right to request appropriate advance payments. 4. If the Agreement is based on a cost estimate, and if it turns out that the costs will be significantly higher than the amount estimated vis-a-vis the Customer, then the TUVI will inform the Customer of such in text form. In this case the Customer is authorized to terminate the Agreement in writing, within two weeks after receipt of such notification. In the event of a termination, the TUVI is authorized to request partial remuneration commensurate with the services already provided. Furthermore, the TUVI is authorized to request compensation for any expenses not included in the remuneration but incurred due to the provision of services. 5. If the Customer owes interest and expenses in addition to a possibly existing Customer claim, any payment by the Customer that does not fully redeem the total sum will first be credited against expenses, secondly against interest, and lastly against the Customer claim. 6. The Customer is entitled to offset and retention rights only if its counterclaims are legally ascertained, undisputed, or acknowledged in writing by the TUVI. This limitation does not apply to the Customer's claims for defects arising from the same contractual relation as the TUVI's payment claim. If the contract partner is a Consumer, then in contrast to clause 1, such contract partner is on Customer entitled to unlimited retention rights for claims arising from the same contractual relation. 7. If, after conclusion of the Agreement, it becomes clear that the TUVI's claims vis-a-vis the Customer are at risk due to the Customer's lack of ability to perform, the TUVI is authorized to perform outstanding services only against advance payment or provision of a security as well as settlement of possibly still outstanding receivables for partial services already provided and arising from the Agreement, and after unsuccessful expiration of a grace period is authorized to withdraw from the Agreement; 8. In case of payment default, the Customer owes default interest in the amount of 24 percentages. The TUVI is entitled to assert further claims if it can prove higher damage to the Customer.

<p><u>TUVI/GTC/01</u> <u>Rev. 0</u> <u>Date: 01/05/2023</u> <u>Page 3 of 5</u></p>	<p align="center"><u>GENERAL TERMS AND CONDITIONS OF TUV INDIA PRIVATE LIMITED</u></p>
<p>VIII. Claims for Defects</p> <p>1. In the event of defective service by the TUVI, the Customer shall grant the TUVI opportunity to supplementary performance, at least twice, within appropriate grace periods, unless this is unreasonable having received such performance in writing and with a concrete description of individual faults, expresses reservations in writing, whereby we will inform the customer again of the foreseen</p> <p>in each individual case or unless special circumstances justify the Customer's immediate withdrawal in consideration of mutual interests. The TUVI may rectify the defect at its own choice or provide the service once more without defect. If supplementary performance is unsuccessful, the Customer is authorized to reduce remuneration agreed to TUVI or to withdraw from the Agreement. TUVI is nowhere responsible for any consequential damages.</p> <p>2. The Customer shall inform the TUVI immediately - no later than two weeks after acceptance - in text form of any obvious defects. The Customer shall inform the TUVI of any hidden defects in writing no later than within two weeks after discovery. Once this grace period is over, the customer's rights regarding defects in the services rendered become invalid if there are no contrary legal provisions.</p> <p>3. The realization of estimates or prognosis's shall only be warranted if this is expressly agreed upon.</p> <p>4. If we are assigned with carrying out tests, any information and statements made by us always and exclusively refer to the test object which has been put at our disposal. We take no responsibility with regards to the completeness and correctness of the documents provided with the test object. Also the granting of test certificate does not include any statement concerning the utility or quality of the tested object which goes beyond the direct technical scope of the test certificate. The same applies to certificates within the framework of certification of management system.</p> <p>IX. Withdrawal</p> <p>The Customers' right to withdraw is valid only if the TUVI is responsible for the violation of duties based upon which withdrawal is declared. The withdrawal must be declared in writing by registered letter. If the Customer is a Consumer, a declaration of withdrawal in text form suffices.</p> <p>X. Liability</p> <p>In providing Services, information, or advice, TUVI does not warrant the accuracy or genuineness of any information or advice supplied or report signed. Unless otherwise agreed upon specifically and confirmed by TUVI in writing neither TUVI nor its representatives are liable for any damage, loss or expense arising out of the services or advice provided by TUVI. Nevertheless, TUV India is liable in case of proven willful misconduct or gross negligence on its part or on the part of its engineers and representatives in the case of loss, damage or expenses incurred due to the advice or service provided by TUV India, its engineers or representatives. In no case the liability shall exceed the prorata fees paid / payable to TUVI for the services or advice provided for that particular equipment, component or part thereof which caused the damage, loss or expense. The aggregate liability of TUVI in respect of this contract, in tort or otherwise, shall not exceed 20% (twenty percent) of the contract price actually received.</p>	<p>TUVI and its representatives are not liable to any person or party with whom there is no direct contract for the particular service. The inspection by TUVI, issue of inspection report, review of Test Certificates / Reports and issue of Inspection Release Note / Certificate does not relieve the Customer/ End User/ Supplier / Manufacturer from their responsibility towards the Customer/ End User to supply / Use the genuine material / item(s) and document(s) in full compliance with applicable Order, Specification, Technical, Quality, Quantity, Warranty, Guarantee, statutory & regulatory requirements. Supplier / Manufacturer / stockist is wholly legally responsible for genuineness of the material / item (s) supplied and document(s) submitted. TUVI's responsibility is only limited to inspection, certification and testing within its agreed scope against written omission or failure to carry out or observe any stipulation, condition or obligation to be performed by TUVI under this Contract will give rise to any claim against TUVI or its employees / group companies / associates, or be deemed to be a breach of contract, if the failure or omission arises from causes beyond that entity's reasonable control. TUVI, its engineers and representatives are not liable in contract, tort, or otherwise for any indirect consequential Loss/damage or expense, including loss of use/ production/profits. TUVI is nowhere responsible for any consequential damages.</p> <p>XI. FORCE MAJEURE</p> <p>The term "Force Majeure", as used in this Proposal / Contract, shall mean: any condition which prevents TUVI from providing services such as : Riot, war, invasion, sabotage, strikes, civil disturbance, and hostilities, acts of terrorism, civil war, rebellion, revolution, epidemics /pandemics or spread of contagious diseases or; Ionizing radiations or contamination by radioactivity or Chemicals release to environment or; Earthquake, Flood, Hurricane, Cyclone, Volcano or any other natural disaster or; Fire or explosion or; acts and regulations of respective Government of the two parties and countries where the work is to be carried out, like Lock down, Curfew, travel restrictions or delay or denial of visa or Acts of God. TUVI shall be entitled to payment in respect of the period where the services could not be carried out as a result of Force Majeure. Time schedule for performance of the activities will be extended for such period as the force majeure lasts and for a reasonable period of re-mobilization, if necessary. Should any circumstance of Force Majeure continue for a period of 2 months or more or maximum limit defined under accreditation, then TUVI may terminate this Contract with immediate effect by notice in writing to the Customer, in which case the Customer shall pay to TUVI all sums properly due under the Contract in respect of the Services up to the date of termination and any demobilisation fees specified.</p> <p>XII. Period of Limitations</p> <p>1. All claims against TUVI shall expire after 1 months from the date of the service provided by TUVI</p> <p>2. The above provisions do not apply to statutory periods of limitations for the following: (i) damages arising from death and injury to body and health; (ii) other damages based on an intentional or grossly negligent breach of duty of the TUVI, its legal representatives; (iii) claims due to fraudulent concealment of a defect; (iv) claims for defective workmanship on a structure or faulty planning and supervision services for a structure.</p> <p>XIII. Utilization Rights and Indemnification</p> <p>1. The TUVI's services provided during the fulfillment of the Agreement (e.g. inspection, testing and certification services) may be utilized only within the scope of the contractually negotiated purpose.</p>

1 TASKS OF THE CERTIFICATION BODY AND THE CLIENT

1.1 Tasks of the certification body

- The TÜV NORD CERT Certification Body (hereinafter referred to as “certification body”) undertakes to treat confidentially all the information regarding the client's company to which it has been granted access in accordance with the agreed confidentiality rules and to use this information solely for the agreed purpose. Documents and information made available shall not be forwarded to third parties. Provision of documents for accreditation bodies within the framework of monitoring and surveillance of the certification body, and also detailed reporting and rendering of information to the arbitration body in cases of conflict are excluded from this obligation. The certification body implements certification and surveillance according to the rules of TÜV NORD CERT. The requirements of the standard or quality standard referred to in the offer, and those of the national legislation on which the accreditation / designation of the certification body / notified body is based, form the basis of the certification.
- The certification body shall perform the certification and surveillance based on the respective procedure and the regulations/standards and shall issue a certificate and (depending on the standard) possibly a test mark (see section 2) if the result is positive.
- The certification body keeps and publishes a list of the certified companies, also stating the scope of the certification on request.
- Complaints of third parties regarding management systems ¹ of clients who have been certified by the certification body are recorded in writing, checked and then dealt with.
- The certification body records complaints and claims of the client with regard to the certification procedure in writing, checks the facts of the case and investigates the complaints / claims. If no agreement is reached between the client and the certification body, the complaints / objection procedure published on the Internet of TÜV NORD CERT (www.tuev-nord-cert.com) is used.
- Appeals to the certification decision may be made directly to the certification body (info.tncert@tuev-nord.de). They are investigated as per the procedure CERT-120-VA012, and escalated in case an agreement was not reached. As per the CPO (Certification Program Owner) protocols unresolved appeals may be shared with the CPO.

1.2 Tasks of the client

- At least four weeks before performance of the on-site audit (certification, surveillance or recertification audit) the client provides the necessary documents to the audit team leader, such as management system documentation, records regarding internal audits that have been performed and the management review documentation.
- Client must have implemented the system to be audited/certified completely prior to a certification audit.
- The client performs a complete internal audit before the certification audit, which covers all the management system requirements of the relevant standard and the processes and sites relevant for the scope of the certificate. A management review is also carried out.

¹ Management System includes product, process and service safety Systems

- The client creates a “risk-based” internal audit programme for the 3-year certification cycle, which covers all the management system requirements, taking the size of the organisation, the scope and the complexity of the management system, the products and processes and the relevant sites into consideration. The audit programme shall be evaluated at least annually with regard to its suitability and effectiveness.
- In the case of multisite certifications, all the sites included in the certification must be covered by the internal audit programme of the organisation. Each site must be audited at least once in the 3-year certification cycle. The headquarters (central office) must be audited each year.
- The client performs annual management reviews within the 3-year certification cycle.
- The client allows the audit team access to the relevant organisation units of the company and allows records that are relevant for the operation of the management system to be viewed.
- The client names a contact person from the company management who is responsible for the execution of the audit. This is in general the representative who has been appointed for the respective management system.
- The client is obliged to inform the certification body immediately in writing of all important changes which occur after issue of certificates or extensions or additions to certificates (this affects for example changes regarding to the legal and organisational form of the company, the economic or ownership situation of the company, the organisation and the management [such as key members of staff in management positions, decision makers or specialist or high-level technical personnel etc.], the contact address and the sites, the scope of the certified management system as well as important changes to the management system and the processes).
- The client has the obligation to inform the certification body immediately of any serious incidents (e.g. recalls, accidents at work, hazardous incidents, process upsets, compliance breach). From its side, the certification body will take corresponding steps to assess the situation and its impact on the certification and will undertake corresponding actions.
- The client has the obligation to record all objections in relation to the management system and its effectiveness, along with corrective actions and their results, and to document these to the auditor in the audit.
- The client has the obligation, dependent on the seriousness of the nonconformity, to inform the audit team within the time limit set by the certification body, either of the corrective actions that have been determined and their target completion dates, or of the implementation of the corrective actions.
- In order to avoid situations of conflict between the certification body and a possible advisory or consultancy organisation, the client shall inform the certification body of advisory or consultancy services that have been used in the area of management systems before or after conclusion of the contract. This also includes organisations, which have carried out “in-house training” or internal management system audits.
- Within the framework of maintenance of the accreditation, notification, appointment, approval etc. the client declares that he agrees to assessors from accreditation organisations to attend audits (also remote by using Information and Communication Technology) possibly taking place within his organisation, e.g. for a witness audit (participation of the accreditation body in a (re-)certification/surveillance audit) and that the accreditation organisation may have access to and view the files.

- The client has the right to decline auditors nominated by the certification body. If no agreement can be reached following 3 proposals, the contract may be dissolved by the certification body.
- In the case of a Certification of Multiple Sites Based on Sampling, the client has the obligation to fulfil all the conditions relating to multisite certification and to report any non-fulfilment to the certification body immediately. In detail, these conditions are as follows:
 - Establishment, creation and maintenance of a management system that applies equally to all sites/production facilities/branches. This also applies to the basic documented procedures.
 - Monitoring of the entire system by the headquarters (central office). The central office has the authority to issue instructions to all sites/production facilities/branches.
- Specified arrangements that certain areas and departments work for all areas and departments within the sites, e.g. product and procedure development, purchasing, human resources etc.
 - Performance of internal audits before the certification audit in all sites/production facilities/branches.
 - Signing of an agreement between the client and certification body, which is legally enforceable at all sites/production facilities/branches of the organisation.
- It can be necessary to perform additionally short-notice or unannounced audits, e.g. in order to investigate complaints, as a consequence of changes or as follow-up for suspended certificates. In such cases the certification body specifies the conditions under which these short-notice audit visits are to take place. It is not possible to object to members of the audit team for short-notice audits. Costs resulting from the additional audit will be charged to the client.
- The client has the obligation to keep a record of all complaints made known to it relating to compliance with certification requirements and makes these records available to the certification body when requested. The client takes appropriate action with respect to such complaints and any deficiencies found in the products that affect compliance with the requirements for certification and documents the actions taken.
- The client undertake the necessary steps to fulfil the certification requirements including implementation of appropriate changes within the certification validity.
- The client has the obligation to fulfil the product requirements of certified products in the ongoing production and complies with any requirements of the certification scheme

1.3 Arrangements regarding occupational health and safety

1.3.1 Arrangements to be undertaken by the client

In due time before performance of the contractual services, the client shall provide information regarding risks, hazards and stress, which could originate from the working environment in the client's factory or at the client's premises. This information shall include information regarding hazardous substances in test pieces. The client shall provide information concerning whether and if appropriate, to what extent, risk and hazard assessments are required for the activities that have been ordered. Legal requirements apply.

The client shall have sufficient arrangements in place for first aid, alarm and rescue, and shall name contacts and responsibilities in this regard.

The client shall ensure that employees of the certification body only perform work when accompanied by an employee of the client.

The client shall provide the employees of the certification body with instruction on the basis of risk and hazard assessment(s) and work and operating instructions. The instruction shall include communication of emergency telephone numbers and assembly points in case of danger as well as a description of the functioning and safety of any equipment to be used under such circumstances.

The client shall supply any necessary personal protective equipment which may be necessary and which is not provided by the certification body (helmet, safety boots or shoes, ear and eye protection – e.g. ear defenders, safety spectacles/goggles) free of charge.

1.3.2 Certification Body

The employees of the certification body may only undertake work if the circumstances and the working environment are safe. The employee is entitled to refuse to perform the work in the presence of unacceptable hazards / risks / stresses.

2 VALIDITY AND RIGHTS OF USE OF THE TEST MARK AND THE CERTIFICATE

- The validity of the certificate begins with the date when the certificate is issued and ends as mentioned on the certificate. The term of the certificate depends on the particular standard on which the audit is based, but may not exceed a maximum of 3 years. This assumes that, based on the date of the certification audit, regular surveillance audits are performed in the company according to the specific accreditation rules or certification standards (e.g. yearly, half-yearly) with a positive result. A surveillance audit at short notice may also become necessary in certain justified cases. It is within the discretion of the certification body to decide on the necessity for such an audit. The certificate extension VDA 6.X is only valid in conjunction with the valid issued certificate according to ISO 9001. The same prerequisites apply for the use of the test mark.
- The scope of the certification is listed in German or in English language. A translation into other languages is provided in good faith. In case of doubt or objection, only the German or the English version of the certificate is binding.
- Approval for use of the test mark only applies for the area of the client's company which has been certified. Use of the test mark for activities which lie outside the scope of the certification is not permitted.
- The test mark may only be used in the form that is provided by the certification body or the Certification Program Owner. The mark must be easy to read and clearly visible. The client is not authorised to make changes to the certificate and/or the test mark. The certificate and the test mark may not be used in a misleading manner for advertising purposes.
- The test mark may only be used by the client and only in immediate association with the company name or the company logo of the client. It may not be used on products or product packaging, nor be used in relation to products and/or procedures of the client, that could be interpreted as confirming product conformity.
- It is not permitted to make use of the test mark on laboratory test reports, calibration certificates or inspection reports or certificates for persons, as these documents are classified as products in this connection.
- The client must ensure that the test mark and the certificate are only used in advertising in such a way that a statement regarding the certified area of the client, which corresponds to the certification, is

made. The client also has to make sure that, within the framework of competition, the impression is not created that certification by the certification body is equivalent to a governmental or official inspection.

- If a claim is made against the certification body according to the principles of product liability based on use of the test mark and/or certificate by the client which infringes the conditions of the contract, the client has the duty to hold the certification body harmless and to release the certification body with regard to all claims of third parties. The same applies for all cases in which a claim is made against the certification body by a third party based on advertising claims or other behaviour on the part of the client.
- The client receives the non-transferable, non-exclusive right, time-limited to the contractual term, to make use of the test mark and the certificate in accordance with the conditions stated above.
- Use of the test mark and the certificate is limited to the client and may not be transferred to third parties or legal successors without the express permission of the certification body. If the client wishes to transfer the right of use of the test mark and the certificate, a corresponding application has to be submitted. A new audit must be performed if necessary.
- The test mark to be used in the individual case depends on the certificate that is issued.

3 ENDING OF RIGHTS OF USE

3.1 Client

The right of the client to use the test mark and to claim ownership of the certificate ends automatically with immediate effect without the need for an express statement of termination, if among others

- the client does not immediately report changes in his operations which are of significance as regards the certification, or indications that such changes may occur, to the certification body,
- the test mark and/or the certificate are used in a such a way as to infringe the provisions of Item 2,
- the results of the surveillance audits no longer justify maintenance of the certificate,
- insolvency proceedings are opened with regard to the assets of the client or an application for opening of such proceedings directed against the client is refused on the grounds that insufficient assets are available,
- surveillance audits cannot be performed within the specified periods for reasons which fall under the responsibility of the client,
- actions for correction of nonconformities have not been carried out within the specified periods allowed or the results of such actions are not satisfactory or
- disputes arise in relation to the test mark in connection with competition law or intellectual property rights.

The certification body is entitled to suspend or terminate a certificate, and thereby the entitlement to use the test mark, if the certification body subsequently becomes aware of new information pertaining to the assessment of the certification procedure or its result.

The certification body reserves the right to make final decisions in relation to the certification, issue, refusal or maintenance of the certification, extension or restriction/limitation of the scope of the certification, renewal, suspension or reinstatement following suspension, or withdrawal of the certification.

In addition, the certification body and the client have the right to terminate the contractual relationship with immediate effect, if use of the test mark is prohibited to the client in a manner which is legally binding. The same applies for the certificate.

3.2 Certification Body

The certification body has the right to instigate a decertification procedure in the presence of the reasons given in 3.1 following proper and expert analysis, and to suspend, withdraw or declare the certificate to be invalid. If, by at the latest 6 months following a suspension, the client is able to prove that a situation corresponding to the requirements for certification again exists, the certification can be reinstated. Any costs associated with this shall be the responsibility of the client.

3.3 End of Right of Use

Upon termination of the right of use, the client is obliged to immediately collect and destroy all certificates (originals, copies, pdf documents) and to cease advertising with the certificates.

3.4 Extension of existing Certificates

The General Conditions for the Certification of Management Systems apply correspondingly for extensions or additions to certificates.
