References:

Email Dated 24.10.2025

Dear Sir / Madam ,

Scope of Work:

Scope of Inspection shall be as per the latest Approved QAP/ITP/FATP/QCP, Drawings, Datasheets, Relevant standards, and documents as applicable for the ordered Inspection. Mechanical inspections include Air-conditioning Products (e.g., Chillers, AHU, Ducting materials, Pumps, motors, pipes, etc.), Pipeline Products (e.g., used in Oil & Gas sector), Fire-Fighting Equipment (e.g., Pumps, Pipes, motors, etc.), and Plumbing Products (e.g., sanitary products, pipes, fittings, etc.). Electrical inspections include Electrical Products (e.g., Cables, HT/LT Panels, switchboards, all types of Transformers, Instruments, Process Control Equipment, UPS, etc.).

- Review / Witness / Verification of incoming materials/items/test certificates, visual and dimensional inspection, traceability of markings, and additional tests if any.
- Review of applicability of approved procedures.
- Review and comment, including recommendations for any additional tests, Quality Assurance, Control Programs (Plans), and Inspection Plans submitted by the OEMs or Listenlights.
- Identify Qualified Inspectors of Class A or Class B category and seek approval of Listenlights personnel responsible for Inspection. To be finalized after classification of inspectors by M/S Listenlights.
- Witness the tests as per the ITP at the manufacturer's premise and test for compliance with agreed product performance parameters/acceptance norms.
- Carry out monitoring/surveillance of the processes.
- Review, as per ITP, of manufacturer/supplier inspection and test reports and their own certification of the equipment/items.
- Report any non-conformances or areas of concern witnessed during inspection and testing. Communicate corrective actions and risks foreseen.
- Stage-wise and final inspection of critical components at various vendor places.
- Packing, Loading Inspection at vendor location (as per Listenlights' request). Competency matrix is attached as per Annexure A.

Deliverable:

IVR and IRN (Inspection Visit Report and Inspection Release Note / Certificate). IRN is the only report which confirms acceptance by TUV India inspector and client must only use IRN to authorize to dispatch. IVR is not the report for final acceptance / Dispatch.

TUV India shall issue Inspection Visit Report & Inspection Release Certificate after satisfactory completion of inspection visit.
